Thank you for choosing our hospital to board your pet. We provide quality boarding with a personal touch. Every attempt will be made to give each pet individual love and attention during their visit with us. While staying with us your pet will be under the supervision of our Pet Care Assistants.

Vaccinations: All pets must be up to date on their vaccinations, and it is the owner's responsibility to make sure that proof of current shots is on file with the hospital at the time of admission. Boarding animals less than five months of age is not recommended because they may not have developed complete immunity.

Dogs: Rabies and Bordetella **Cats**: DRTCP, FELV and Rabies.

Internal/External Parasites: All pets must be free of parasites, including fleas and ticks. We require Capstar if fleas are seen.

Rates and Payment: Dog boarding rates are based on weight. Other services provided to your pet during boarding are charged at regular cost. Payment in full is expected when your pet is discharged. A deposit is required for first time clients and extended boarding. Rates are calculated on a daily basis. Boarding is charged by the number of days stayed, and charges are updated at closing time.

Medical Illness Policy: One of the advantages of boarding your pet(s) at a Veterinary Hospital is that medical attention is readily available for our guests. If your pet needs medical attention we will call the emergency number that was given to us on admission. If we are unable to contact you, your pet will be treated as we deem necessary, at normal hospital fees. If your pet is currently on medication, please inform the receptionist. Charges for administering medications are based on the frequency of dosages and the means of administration.

Personal Belongings: Leaving personal belongings, i.e.: toys, blankets, bedding, etc., is allowed but discouraged due to sanitation and orderliness requirements. If you have questions about this, please discuss with the Pet Care Assistant. The facility is not responsible for any items if lost or soiled.

Inherent Conditions: Occasionally pets may develop problems from environmental and dietary changes. Signs may include: vomiting, diarrhea, coughing, sneezing and self-trauma such as scratching or biting their skin. We take great care so that these problems won't occur and we treat our guests promptly, if needed. However, please be aware and understand that these conditions can develop and that the hospital is not financially responsible for these inherent conditions, if they do occur.

Abandonment: Please notify us if there is any change of plans in your pet's scheduled release date. If you do not notify us of a change in your pet's departure date and either we do not hear from you or are unable to contact you or your authorized agent for a period of 14 days after your pet's scheduled release date, the Hospital will consider your pet abandoned according to the animal abandonment laws in your state. Please be advised that the pet owner will be responsible for the fees accrued and any other fees or legal services incurred by the Hospital as a result of the abandonment.

If you have any questions or problems, please call your caring VCA hospital staff. Thank you!
